Product Lines

August 2010

Mankin Media Systems realizes that a paintbrush is only as good as the hand of the artist that holds it. In the same way, a product line requires a knowledgeable handler who can cut through the noise and choose just the right product for the job. If it doesn't engage your audience, then its not doing its job. These product lines help you create masterpieces.

360 Systems	Codan Broadcast	Grass Valley	Ocean Matrix
